### Description

### Imperial Gold Vodka

Imperial Gold Vodka was created in 1721 to celebrate the crowning of the Emperor of Russia Peter the Great. This **sophisticated and elegant vodka** is still made using the same recipe from the Petrine-era with honey and lime tree flower infusion. **Imperial Gold** is distilled using the finest rectified alcohol and the purest Lake Ladoga water. This stunning vodka undergoes a 12 stage purification process that uses gold-threaded filters and it is enriched by **24-carat gold ions**. The bottle is decorated with 99% pure gold and made with pharmacy glass, to preserve the vodka's full flavour. **Lagoda Group** was founded in 1995 in Saint Petersburg. Nowadays, its products are sold in more than 40 countries and it is one of the most important distillers in Russia.
